The Vaccine Research Center at the National Institutes of Health in Bethesda, Maryland seeks DC-area healthy volunteers for influenza (flu) vaccine research.

**Participation includes:**
- A medical screening involving physical exam and blood tests
- 8-10 outpatient clinic visits for about 40 weeks after enrollment (10-month period)
- Receiving 1 or 2 experimental vaccines depending on study group assignment
- Receiving financial compensation for your participation

**You may be eligible if you:**
- Are healthy and between the ages of 18 and 70 (excludes those born from 1966 to 1969)
- Received at least one seasonal flu vaccine from 2014 to present
- Have a body mass index (BMI) less than or equal to 40 (calculate your BMI at https://go.usa.gov/x5My6)

**You will not be eligible if you:**
- Have diabetes type I or II
- Are pregnant, breastfeeding, or planning to become pregnant during the study period

**Location:** The NIH Clinical Center, America’s research hospital is located on the Metro red line (Medical Center stop) in Bethesda, Maryland.
